

Shustoke Parish Council

# **RISK MANAGEMENT POLICY and REGISTER**

Revised 110518

## **INTRODUCTION**

The Parish Council is responsible for establishing arrangements for the management of risk. Risk policy statements and consequential risk management arrangements should be reviewed by the Council annually.

Risk assessment is a systematic general examination of working conditions, workplace activities and environmental factors that enable the Parish Council to identify any and all potential risks inherent in the place or practices. Based on the assessment the Council should take all practical and necessary steps to reduce or eliminate the risks.

When considering any new activity, the Clerk will prepare a draft risk assessment including risk management proposals for consideration and adoption by the council.

This document has been produced to enable the Parish Council to assess the risks that it faces, and to satisfy itself that it has taken adequate steps to minimise those risks.

The management of risk requires assessment of the likelihood of an incident occurring, and its impact if it does occur. It is usual to express these as 'High', 'Medium' or 'Low'. Scores of 3, 2 and 1 can be given to provide a numeric score when the 'likelihood' and 'impact' figures are multiplied.

If the likelihood and impact are both high, special measures need to be taken to reduce the level of risk, or the risky activity removed completely. If the score is low, moderate measures may be sufficient to control or eliminate the risk.

<b>REF</b>	<b>RISK</b>	<b>LIKELIHOOD</b> Score 1, 2 or 3	<b>IMPACT</b> Score 1, 2 or 3	<b>RISK SCORE</b> Likelihood x Impact	<b>MANAGEMENT OF RISK</b>
1	Loss of Councillors below quorum	Medium 2	High 3	6	Ensure Councillor numbers retained at 100% through co-option. Create waiting list – co-optees. Create Vice-Chair for resilience. Follow-up Councillors not attending meetings.
